

I am very glad to write about how pleased I am with the SteppIR Urban Antenna.

I have been a HAM for over 50 years and can honestly say that I have had something happen that has never happened before. And this has happened on numerous occasions.

This is most notable on SSB DX pileups that often do not operate split frequency, so you are fighting it out with everyone else.

WHAT HAS HAPPENED IS THAT I WORK THE DX PILEUP'S ON THE VERY FIRST CALL!

I am not in the best radio location, but since the STEPPIR, its is truly a if I can hear them, I can work them. I believe the UrbanBeam is the secret to my success!
