

“ Testimonials

THERE HAS NEVER BEEN A BETTER TIME TO OWN A STEPPIR.
AND WE BACK IT UP WITH A 5 YEAR WARRANTY!

“Since I bought my 3 element SteppIR Yagi,
I sold my amplifier because I never needed it!”

- Maurice Dake K9EE

“I would highly recommend the BigIR vertical
antenna - it's the first time I have ever been
able to operate a vertical that was this
broadband thanks to the stepper motor
tuning - and I always have great SWR!”

- Hal Massey WB6NNR

“My Urban Beam has worked flawlessly -
it's hard to believe it's only two elements
(and a dipole on 40/30m). It has survived some
very high winds and icing that took down
wire antennas. Great product.”

- Ora Smith W9DJ

“I love my SteppIR 4 element Yagi and use
it every day - it is one of my most prized
possessions.”

- John Westerman W5ODJ

“The reverse button is truly amazing! No waiting
for the rotator to crank around 180 degrees -
you might think this is not a nice feature but
once you have it you won't be without it again.”

- Bill Ferry K1BZM

“My experience with my order, delivery and
after-sales support from SteppIR was flawless.
My DB18E has been up for over 7 years with
faultless operation - thank you John (WA7IR)
and the SteppIR team for an excellent product!”

- Mark Abela VK2PH
