

# PREWIRING

## FREE FROM THE FACTORY

The best performing antenna systems in the world, just got **BETTER** - Introducing control-cable prewiring for all new antenna purchases!

- Wiring is a thing of the past - greatly simplifies assembly of all SteppIR antenna products.
- Eliminates potential new-installation wiring issues
- Virtually plug and play on wiring
- DB25 control cable connection is soldered and tested at the factory.
- Connection junction box terminal strips also prewired.
- Standalone prewired control cable for existing antenna installations also available
