EXPERIENCE COUNTS...

John Mertel WA7IR, our CEO and one of the original founders of SteppIR, is back at the ham radio sales desk again

“There has never been a better time to own a SteppIR product. With recent innovations, we are producing the most reliable and highest performance antennas in our 21 year history. Our team continues to innovate, constantly looking for ways to improve, with numerous initiatives currently underway and new products in development. As CEO, I decided that the best way I can show our customers how serious we are about bringing a dominant product to the ham radio market, is to be first in line to communicate with them.”

- John Mertel WA7IR

NOW'S THE TIME! These last months of the year are a great time to buy a SteppIR antenna – quick shipping times, cooler weather for installs, and 2022 pricing – along with the most reliable, long lasting and high performance product we have offered in our 21 years of doing business!
