4

Re-Introducing the Legacy Series SteppIR antennas, 2, 3 and 4 element Yagis with STRAIGHT ELEMENTS - unbeatable performance on 20m-6m - and every single frequency in between! Optional 40/30 loop dipole available for the Legacy Series antennas.

I'll not forget the first time I switched from my previous dipole to the SteppIR 3 element Yagi. It was as if a door to the world had been opened.
